Comments:

Although we do find homeschooling challenging, distraction is definitely a massive part of being at home, but we do try to do some learning every day. We do only do the work packs as we do not have a laptop or computer, and he does find it awkward doing work on my phone. Y1 parent

I've found doing home learning with x quite difficult. There has been quite a few distraction at home for him to concentrate fully and it can be quite hard to motivate him to complete work. Also home/work life

balance has been tricky with having 3 of them home and a baby to care for has been challenging. We have given it our best though! Y4 parent

X seems happier to complete his work now he is interacting on Teams meetings. Y6 parent

I stopped working to teach my child. Y2 parent

X had a very positive attitude to learning. This only went negative if she found it difficult and did not understand it. Y6 parent

The work not completed I have left behind to do during half term holiday. Y3 and Y4 parent

Home learning this lockdown has been much better due to work / support from the school! my children have enjoyed the Teams meetings knowing that their teacher is there to support in any work they don't understand. Y2 and Y4 parent
